

SUNDAY OF ST. MARY OF EGYPT

1. Cut out the template shapes. Note how the frame shape is formed as a cross.

2. Turn the frame shape over, and glue the image of St. Mary onto the center of the cross as shown.

4. Give a three-dimensional look to the label by wrapping it around a pencil, one side to the opposite direction of the other.

5. Glue the rest of the pieces onto the framed image: the label at the bottom, the tree foliage at the top left and right, and the blue semi-circle at the top center, securing it behind the frame. If desired, you can curl each tree leaf up a bit with the help of the pencil. You can also tape a loop made out of string or ribbon to the back of the frame for hanging.

READY!

3. Make the frame border by rolling each arm of the cross around a pencil to form a cylinder. Secure the cylinders in place one-by-one. Spread some glue on both the cylinder and the background and hold the cylinder firmly in place for a few minutes, until the glue starts to dry. After the cylinder is secured in place, slightly readjust its shape with your fingers if needed.

You will need:

- The relevant crafting templates, from our Great Lent Craft Kit.
- Scissors and glue.
- The craft is designed to look pretty just as it is; however, if desired, it can be further embellished with additional materials of your choice, such as pieces of paper fringe, sequins, glitter, mini crafting jewels etc.
